ROHIT KUMAR

Cover Letter & Certifications List

With over a decade of experience specializing in Hybrid Cloud Storage and Data Protection, I am excited about the opportunity to bring my comprehensive skill set and expertise to your esteemed organization.

In my previous roles, I have honed a diverse range of skills crucial for success in hybrid cloud storage environments. Here's how my experience aligns with the key requirements of the position:

Storage Technologies: My proficiency spans various storage technologies including SAN, NAS, object storage, block storage, and file storage, enabling me to architect robust storage solutions tailored to specific business needs.

Cloud Platforms: I possess in-depth knowledge of major cloud platforms such as AWS, Azure, and GCP, including their respective storage services like Amazon S3, Azure Blob Storage, and Google Cloud Storage.

Networking: Strong networking skills allow me to effectively manage data transfer between on-premises infrastructure and cloud environments, ensuring seamless connectivity and optimal performance.

Security: With a keen understanding of security best practices, I prioritize data encryption, access control, and compliance requirements such as GDPR and HIPAA to safeguard sensitive information.

Data Migration: I have expertise in efficiently and securely migrating data between on-premises storage systems and cloud platforms, minimizing downtime and ensuring data integrity throughout the process.

Backup and Disaster Recovery: My ability to design and implement robust backup and disaster recovery solutions spans both on-premises and cloud environments, ensuring business continuity in the face of unforeseen events.

Automation and Scripting: Proficiency in scripting languages like Python, PowerShell, and Bash enables me to automate tasks such as provisioning storage resources, managing data replication, and monitoring storage performance.

Monitoring and Performance Tuning: I possess strong skills in monitoring storage infrastructure and performance metrics, optimizing configurations for efficiency and cost-effectiveness to meet business objectives.

Compliance and Governance: My understanding of regulatory requirements and industry standards ensures data compliance during storage migrations and the implementation of governance policies for data access and retention.

Collaboration and Communication: Strong communication skills enable me to collaborate effectively with cross-functional teams, including developers, IT operations, security, and compliance teams, to design and implement hybrid cloud storage solutions that align with business requirements.

Vendor Management: I have experience working with storage vendors for on-premises infrastructure as well as cloud service providers, negotiating contracts and staying updated on new features and technologies to drive innovation and efficiency.

Continuous Learning: I am committed to continuous learning, staying updated with the latest trends, certifications, and best practices in hybrid cloud storage to ensure the delivery of cutting-edge solutions to your organization.
